

**Attention QIPP and CCG Leads, PCT Cluster & Adult
Social Service Commissioners!**

Get 'e-QIPP-ed' for neurology in Nottingham

Why get 'e-QIPP-ed'? Neurological Commissioning Support (NCS) is running a series of free Roadshows across the country to raise awareness of 'QIPP' and its relevance to neurology.

They aim to promote increased understanding of neurology commissioning and potential areas of cost- savings, showcasing available tools to assist in effective commissioning, such as NeuroNavigator - all with a specific focus on partnership working and QIPP.

We are focussing on what's worked in other areas so that you can transfer ideas and benefits to your own locality.

The FREE to attend roadshow is being held

**on
29th February 2012**

**De Vere Village Nottingham
Brailsford Way
Chilwell
Beeston
Nottingham
NG9 6DL**

It's completely **FREE** to attend and you will achieve:

- An understanding of how to reduce unscheduled care in neurology
- An ability to unbundle neurology spend
- A series of QIPP case-studies to learn from and adapt for your locality
- Greater understanding of how outcomes can be improved
- An understanding of integrated working and how to build capacity in the workforce
- A plethora of thoughts and opinions from peers, having discussed and debated current issues in neurology
- An understanding of available data and how to use it effectively

NCS is a not-for-profit, voluntary sector organisation that aims to secure better care and services for people living with a long-term neurological conditions by improving neurology commissioning and service provision. NCS is in receipt of a Department of Health Innovation grant 2011-2013 to provide commissioning support to CCGs
